## More News & Updates

August 5, 2010

### In short

*This is real*

Radiological Technologies University, RTU, is entering its 2nd year of Operations. Listed below are highlights of Year 1. I am honored to be surrounded by passionate professionals in this field that want to make a difference. I welcome you to join the RTU mission which will go international in CY2011. Year 2 initiatives are listed below. We will be conducting weekly WebEx sessions (30 minutes in duration) to introduce you to RTU.

### First year in review

RTU First Year Highlights

- RTU has 14 graduate students actively engaged in professional studies.
- RTU curriculum follows CAMPEP guidelines and TG-197 guidelines.
- RTU has entered Stage 2 of 2 with the Indiana Commission On Proprietary Education (COPE).
- RTU has submitted the Florida Application for review in September 2010.
- RTU is offering graduate programs in the following disciplines.
  - Medical Physics
  - Medical Dosimetry
  - Medical Health Physics
- RTU has formed relationships with 3 nationally recognized engineering programs.
- RTU is offering the following undergraduate courses to assist with ABR Board eligibility:
  - Calculus Based Physics 1
  - Calculus Based Physics 2
  - Nuclear Physics
  - Electricity & Magnetism
  - Thermodynamics
  - Quantum Mechanics (Physics)
- RTU will be the host of a RT Roundtable (stay tuned).
- RTU has brought on Melody Sharp to lead the University as the CEO and President.
- RTU has formed a non-for profit entity, John Patrick School of Applied Medicine Foundation, to support grant and donor activities.

### Second year initiatives

*Where we're going*

- RTU will open its Florida Campus in Jan 2011.
- RTU's International initiatives will launch in 2011 in the following countries: India & China
- RTU's CME Journal Club will launch in 4th Quarter 2010 (stay tuned).
- RTU will continue to collaborate with 7-10 additional engineering schools.
- RTU will graduate its first Medical Physics graduates (2) in December 2010.
- RTU's West Coast Campus will open in June 2011 in either LA, Fresno, or the Bay area.
- RTU will be present at AAMD, ASTRO, ESTRO, JASTRO, and other meetings.

I thank you all for your time and passion towards these fields. If interested in learning more about the RTU experience, please visit us at:
